What clients have said about Cherry:

Cherry were absolutely fantastic at our School Ball, the students and teachers alike were delighted with the band and their covers. I would like to thank yourself and **Cherry** for making this a very successful event. Matt contacted me regarding the song selection as suggested by yourself as we are a Catholic organization, and was happy to cater to our needs. Thank you again for all your help, you and **Cherry** have certainly made my life easy with the planning and preparation for the 2007 Ball.

Vicki Daly—Aquinas College

The variety and quality from **Cherry** was an excellent mixture of music which catered to all ages and even requests from the audience for special favourites were accommodated when ever possible. The fact that the staff requested that **Cherry** be engaged again so soon after our first function is testament to the great performance the band provided. We had in excess of 100 guests on both occasions and did not receive any thing but positive comments from all those in attendance.
